Intermediate **(Pre-Engineering)**

[GOVERNMENT SCIENCE DEGREE COLLEGE], [Gambat] — [2019]

Matriculation **(Science)**

[govt. high School], [Sattabo] — [2017]

PROJECTS

Vacuum Agent Cleaner

The goal of this project is to clean the room with least amount of action. It must ensure that the entire environment is clean and that the agent returns home.

Auto Door Lock System in Auduino

The system captures a person's face and then stores it in a database. Later, when that person comes to unlock the door again, facial recognition technology scans the face and checks it against the database.
